

Link Aero Trading Agency

Your Global Handling Partner

Link Aero Trading Agency was established in 1992 at all Egyptian stations to provide airlines with ground handling services and Civil Aviation permissions. Link Aero Trading Agency handled close to 20 million passengers, over 150 thousand flights and more than 140 clients including scheduled, charter, government, military, private and cargo operators.

Our 394 Link team members use the most up-to-date technology with a 24/7 Operations Control Center (OCC) providing top of the line professional support to flights in compliance with EU Ops regulations. Moreover, **Link Aero Trading Agency** is registered as an ISAGO provider following the successful completion of the Corporate and Stations audit.

Link Aero Trading Agency Jordan has an operational base in Aqaba established since in 2006 providing representation against Civil Aviation and full handling services at all Jordanian airports, through well trained teams. Link Agency provides ramp and passenger handling supervision ensuring safe and comfortable flight experience for customers as well as an efficient and safe use of equipment on the ramp side.

Link Aero Trading Agency UAE established a fixed base operations control center at Dubai International Airport in 2011 providing representation and diplomatic clearance including landing permits, over-flying permits and slots coordination. Our services also include passenger and ramp supervision and station and revenue management.

Link Aero Trading Agency Morocco was established since 2012 with a fixed base operations control center. LATA provides airlines with representation against Civil Aviation and full handling and station management services including revenue management for selling leg space, excess luggage collection (at counter and gate) and ticket rebooking collection.

Link Aero Trading Agency Global Flight Support continues its successful business globally constantly developing a wide network of communication with Civil Aviation and Airport Authorities in countries within Africa, Middle East, Far East, Central and South America to assist in providing airlines with overflying, landing permissions as well as full handling services and representation.

Several divisions within **Link Aero Trading Agency** are also available to cover private jets handling, airport security & document fraud check, on call maintenance, fuel, catering supplies, special VIP treatment, crew support, hotel arrangements and transportation.

Link Aero Trading Agency

Your Global Handling Partner

Link Aero Trading Agency Airport Ticketing Office Support has a team responsible for ticketing services to give support to scheduled airlines operating to different airports. Furthermore, we have also won Best Stations Award for excess baggage collection from several airlines. This is in addition to winning the Ramp Safety Award twice for Middle East & Africa Region.
